

**National Jewish
Health**

**Advanced Diagnostic
Laboratories**

Dear Valued Client:

Effective August 1, 2022, National Jewish Health Advanced Diagnostics Laboratories will be standardizing the reporting of Complement Levels by RID. This change will constitute a shift from the current reporting structure of one decimal to a whole number for the C2, C7, Factor B and Factor I levels, making the reporting of these 4 analytes concentrations consistent with the other RID levels that currently report concentration as a whole number.

If you have any questions, please call Client Services at 800.550.6227 or email ClinReflabs@njhealth.org.
Sincerely,

A handwritten signature in blue ink that reads "Manuel Galvan".

Manuel Galvan, PhD
Director, Complement Laboratory
National Jewish Health
Advanced Diagnostic Laboratories
