IMPORTANT NOTICE: List Price Increase Effective October 17, 2023

National Jewish Health Advanced Diagnostic Laboratories is pleased to partner with you to provide high-quality diagnostic testing and the timely delivery of reliable and actionable results via our specialized infectious disease, allergy, immunology and complement laboratory testing services. It is our mission to provide cutting-edge testing that supports the needs of your patients and your organization. We also believe in continual, transparent communication with our valued clients, and as such, we want to provide this 60-day advanced notice regarding an upcoming change to our list prices for testing.

Like most of you, we have experienced the effects of inflation in our business, including price increases from our suppliers. We have worked hard to avoid adjusting our prices, and our last price increase was in 2020. Unfortunately, we can no longer continue to absorb these additional costs without a small adjustment in our prices. This letter serves as notification that our "list" or fee schedule pricing will increase, beginning October 17, 2023. At the same time, we are reviewing our pricing for selective specialized assays. The new fee schedule is available upon request.

Thank you for your partnership and trust. We're honored to be a part of your care team. It is our pleasure to continue to assist you with your testing needs, now and in the future. Please don't hesitate to contact us with any questions or suggestions.

For additional information or questions, please contact Client Services at (800) 550-6227 or via email at clinreflab@njhealth.org.

Sincerely,

A handwritten signature in black ink that reads "Lara Yourkin".
