

**IMPORTANT UPDATE: New Scleroderma (Systemic Sclerosis) Antigen Panel Test**

Dear Clinical Staff:

Effective Monday, April 17, 2023, Advanced Diagnostic Laboratories is very pleased to announce the launch of a new antigen panel for scleroderma (systemic sclerosis), with corresponding test code SSP12. This test is an immunoblot and has been fully validated by Advanced Diagnostic Laboratories according to CAP/CLIA guidelines. The new test will detect IgG antibody reactivities to 12 antigens in the panel. The group of antigens included are listed below:

- Scl-70
- centromere A (CENP A)
- centromere B (CENP B)
- RP11
- RP155
- Fibrillarin
- NOR90
- Th/To
- Pm-Scl100
- Pm-Scl75
- Ku
- Ro-52

If you have questions, please call our Client Service Team at extension 4120 or email [clinreflabs@njhealth.org](mailto:clinreflabs@njhealth.org).

Sincerely,

Steve Groshong, MD, PhD
