HE'LL

Jake Cohn
Professional Skier
Asthma Patient

NEVER

FLY.

AT THE NATION'S LEADING RESPIRATORY HOSPITAL, WE NEVER SAY NEVER.

Jake Cohn was born with severe asthma and spent much of his childhood in the hospital. For a while, it looked like he'd never lead a normal life. But then he came to **National Jewish Health in Denver.**

Thanks to our cutting-edge technology, groundbreaking research and expert care, Jake's spending his days on the slopes as a professional skier instead of in a hospital bed. See more of Jake's story and many others at njhealth.org/patients. **To make an appointment, call 1.800.621.0505 or visit njhealth.org.**

National Jewish Health[®]

Science Transforming Life[®]

Dear Friends,

Thank you for being a part of the 2016 Fund to Cure Asthma Golf Tournament. Through your attendance today, you are fueling our ability to pioneer medical advancements, provide compassionate care to all patients and train the next generation of leaders in medicine and science.

Every day, we hear from grateful patients who have spent years of their lives looking for answers to their complex medical conditions. They often tell us, "You were the only place that could help." Such words are a testament to our ongoing mission and the generosity of our donors.

We would appreciate the opportunity to show you in person what makes National Jewish Health the leading respiratory hospital in the nation. In addition, our website (njhealth.org) is a tremendous resource for information about the conditions we treat, our research and our world-class physicians.

Once again, we are appreciative of your support. On behalf of the dedicated faculty and staff at National Jewish Health, thank you for joining us at the Fund to Cure Asthma Golf Tournament. Best regards.

Sincerely yours,

A handwritten signature in black ink that reads "Michael Sal". The signature is written in a cursive, flowing style.

THE FUND TO
Cure Asthma

Dear Friends and Colleagues,

Thank you for joining us today for the 2016 Fund to Cure Asthma Golf Tournament. For 20 years, supporters of National Jewish Health have gathered at this event to raise funds for asthma research and care.

National Jewish Health, based in Denver, is the only facility in the world dedicated exclusively to the groundbreaking research and treatment of patients with respiratory, cardiac, immune and related diseases. Physicians and scientists at the institution have made cutting-edge discoveries that have improved the lives of patients around the world.

Now, people can access the hospital's unique model of care in New York through a partnership between the Icahn School of Medicine at Mount Sinai and National Jewish Health. Since opening in January 2015, more than 13,000 patients have visited the Mount Sinai – National Jewish Health Respiratory Institute in New York City. For more information, visit www.therespiratoryinstitute.org.

We would like to extend a special thank you to each of our sponsors and donors. Please page through this program and see all the supporters who helped make this event possible – many of whom are here today. Through their generosity, they are helping the millions of people who suffer from asthma.

Have a wonderful day, and thank you for supporting this important cause!

With gratitude,

Robert E. Helpern

SHE'LL NEVER DANCE AGAIN.

WE NEVER SAY NEVER.®

Don't let severe or mild breathing problems limit your child's potential. Our innovative approaches to treating respiratory, allergy and immunology-related illnesses help children and adults breathe easier. That's why National Jewish Health has been the nation's leading respiratory hospital for 117 years. **To make an appointment, call 1.800.621.0505 or visit njhealth.org.**

**National Jewish
Health**®

Science Transforming Life®

THE FUND TO Cure Asthma

The Fund to Cure Asthma (FTCA) was founded and created by Nancy & James Berry Hill and Marjorie & Stephen Raphael in 1994 to raise \$14 million for basic and clinical research related to understanding, treating and eventually conquering this widespread, debilitating and sometimes fatal disease.

FTCA supports work at National Jewish Health, the leading respiratory hospital in the nation. We have broken ground with discoveries that impact and improve the lives of asthma patients around the world.

National Jewish Health is committed to educating the next generation of leaders in research and care. Through fellowships, lectures and publications, our faculty have provided knowledge for tens of thousands of professionals around the globe. In addition, we offer a variety of unique programs for consumers, including Lung Line[®], a free information service that has answered millions of phone calls and emails since it was established in 1983 (800.222.LUNG).

100% PIGEON-FREE WATER

No matter what's up on the roof.

If you live in New York City, there's a good chance your tap water comes from the iconic water tank on your building's roof. And that might not be water you want to drink straight from the top.

But your apartment's drinking water can be clearer, cleaner and great tasting — if you have a Culligan® Aquo-Clear® Advanced Drinking Water System.

By Using Culligan's Aquo-Clear Water Filters you are helping to reduce the amount of plastic bottles that end up in landfills. Culligan's Aquo-Clear Water Filters have been certified by NSF International which assures your Culligan Filter has been tested under the highest industry standards.

Installation is fast. You'll be enjoying clearer, cleaner water in no time, and you'll never have to buy and store bottled water in your apartment again.

So call us today, and start enjoying better water, pure and simple.®

Culligan.

better water. pure and simple.®

Our Mission since 1899 is to heal, to discover, and to educate as a preeminent health care institution.

We serve by providing the best integrated and innovative care for patients and their families; by understanding and finding cures for diseases we research; and by educating and training the next generation of health care professionals to be leaders in medicine and science.

Our Vision is to be the global leader in the research and treatment of respiratory, cardiac, immune and related diseases.

We pursue this vision by pioneering individualized medicine programs which embrace the paradigm shift from reactive medicine to proactive, personalized health care. These programs enable us to integrate the provision of outstanding patient care, the conduct of novel basic, translational and clinical research, and the education of health care and research professionals. Through our efforts, we seek to achieve cures for patients who seek treatment and to bring new knowledge and discoveries to help people worldwide.

Thank you to our
