Jeff Liebenstein, Seth Liebenstein

National Jewish Health is *the* place in the United States where patients with the most difficult cases of lung, heart, immune and related diseases seek life-changing care.

Your philanthropic gifts enable our dedicated team of physicians and scientists to bring hope to children and adults worldwide by pursuing new pathways of care, treatment and discovery.

Thank you

Thank you for supporting National Jewish Health through the Breath of Life New York Golf Tournament. Increase your impact by donating at njhealth.org/NYGolf or scanning the QR code.

Dear Friends:

Thank you for being a part of the 26th annual Breath of Life New York Golf Tournament benefiting National Jewish Health. Your generosity makes a difference to thousands of children and adults from across the country and internationally who seek answers — and need hope — when faced with challenging lung, heart, immune and related conditions.

Your support enables our world-class physicians, practitioners and scientists to lead cutting-edge research and clinical care programs that keep us at the forefront of innovation. Our reputation of excellence, 124 years in the making, propels us to uncover the root causes of breathing and heart problems, drive breakthroughs to alleviate the symptoms of autoimmune conditions and advance novel treatments for antibiotic-resistant lung infections, and many others. We also remain attentive to the debilitating impacts of long COVID, which is informing our understanding of immune response, a key factor in many diseases.

Recently, we commemorated the first year since opening the Center for Outpatient Health, our state-of-the-art clinical space that reflects the future of the institution. Other infrastructure upgrades over the next year will make way for enhanced research and advanced patient care capabilities to ensure the best outcomes possible for our patients and families.

To learn more about our breathtaking discoveries and life-changing care, visit njhealth.org, or contact our Development Office. We invite you to take a personal Behind the Scenes[®] tour to see firsthand why we are the nation's leading respiratory hospital. Please contact us at 212.297.0857 to arrange a visit.

On behalf of our Board of Directors, Council of National Trustees, faculty, staff and the patients and families we serve, thank you for joining us at the Breath of Life New York Golf Tournament. Best regards.

Sincerely,

A handwritten signature in black ink, appearing to read "Michael Salem". The signature is fluid and cursive, with the first name "Michael" and last name "Salem" clearly distinguishable.

Dear Friends and Colleagues,

Thank you for being a part of the 26th annual Breath of Life New York Golf Tournament benefiting National Jewish Health, a world-class institution that is changing lives all over the world through compassionate patient care and groundbreaking research that are second to none.

National Jewish Health is a leader in the treatment and research of lung, heart, immune and related diseases. Their work has led to pivotal breakthroughs in medicine and some of the most-used medications on the market, including those for allergies and asthma. With a main health campus in Denver, and Respiratory Institutes across the nation, including two locations in New York, the research and care at National Jewish Health impacts each of us and our families every day.

We are also grateful for this unequalled institution's 124-year commitment to treat all patients, regardless of ability to pay. In fiscal year 2022, National Jewish Health provided \$44 million in charity or subsidized services, making possible specialized care for thousands who otherwise could not have this access. We extend a special thanks to each of you for generously helping millions of people who suffer from lung, heart, immune and related diseases. That is why your support is so important.

Again, thank you for joining us to support this worthy institution that impacts the health of people around the world. We encourage you to browse through the program and see all of the people who have made today possible.

Have a wonderful day!

For his tireless work on behalf of

National Jewish Health

and continued commitment to
this worthwhile cause

Your friends,
Felice & Jay Seeman

For as many as in **1 in 4 Americans**, conditions such as asthma, allergies, COPD, interstitial lung diseases, lung cancer and many others, can significantly interfere with quality of life or be life-threatening.

When you give to National Jewish Health, you give hope to millions of people each year through groundbreaking research and coordinated care.

Best in the Nation

National Jewish Health achievements include:

- Recognized worldwide for the impact of scientific findings and for developing national guidelines for the diagnosis and care of asthma, lung cancer, COPD, idiopathic lung disease, atopic dermatitis, among many other diseases.
- Physicians and scientists regularly publishing their groundbreaking work in the most prestigious scientific and medical journals, including *Cell*, *New England Journal of Medicine*, *Lancet* and *JAMA: The Journal of the American Medical Association*.
- Consistently recognized as worthy of support by the National Institutes of Health (NIH).
- Ranked at the top in Pulmonology by *U.S. News & World Report* for 26 consecutive years. Earned the highest ratings available for COPD, Pneumonia and Lung Cancer Surgery programs.
- More than 50 physicians recognized among the best doctors on lists including “America’s Top Doctors” by Castle Connolly.

Groundbreaking Research

National Jewish Health has made many important scientific findings and advances, including:

- IgE, the molecule responsible for allergic reactions.
- The T-cell receptor gene, which is critical to immune response.
- Proteins that slow growth of cancer tumors.
- Asthma research that has led to many of the medications available today.
- Life-changing treatment for cystic fibrosis, extending the lives of patients into adulthood.
- Stopping the progression of COPD.

Educating Future Leaders in Medicine

National Jewish Health physicians and scientists are thought leaders, elevating the standard of care for patients while preparing the next generation of health care professionals to be leaders in medicine and science. More than 900 physicians and scientists have held fellowships at National Jewish Health.

Whether you live in New York, London, Denver — or anywhere else in the world — your support of National Jewish Health, right now, will help to make possible life-changing care and breathtaking discovery that will impact you and generations to come.
