Health**

Advanced Diagnostic  
Laboratories

Dear Valued Client,

Effective 12.15.2025, the Neutrophil Oxidative Burst Assay by Nitroblue Tetrazolium (NBT) Dye Reduction has been discontinued at National Jewish Health. However, we do perform the [Dihydrorhodamine Oxidation](#) (DHR) test, a more precise alternative for providers who want to diagnose Chronic Granulomatous Disease (CGD) in their patients.

We apologize for any inconvenience this may cause. If you have any questions, please contact our Client Service team at 800.550.6227 or via email at [ClinRefLabs@NJHealth.org](mailto:ClinRefLabs@NJHealth.org).

Sincerely,

A handwritten signature in blue ink, appearing to read "Steve Groshong".

Steve Groshong, MD, PhD  
Medical Director, Advanced Diagnostic Laboratories  
National Jewish Health
