

Mike grew up in Massachusetts before moving to NYC after college. He became involved with the NYC Air Society through friends who chaired the annual event. He moved to Denver in 2016 for work and was introduced to the Denver Air Society where he spent two years co-chairing the event with his wife and the Morse Family. The Morgridge Academy and NJH overall are very special institutions that do great work in Denver and beyond. He is excited to be a part of such a great organization.
