

National Jewish Health is the leading respiratory hospital in the nation delivering excellence in multispecialty care and world class research. Founded in 1899 as a nonprofit hospital, National Jewish Health today is the only facility in the world dedicated exclusively to groundbreaking medical research and treatment of children and adults with respiratory, cardiac, immune and related disorders. Patients and families come to National Jewish Health from around the world to receive cutting-edge, comprehensive, coordinated care.

ABOUT NATIONAL JEWISH HEALTH

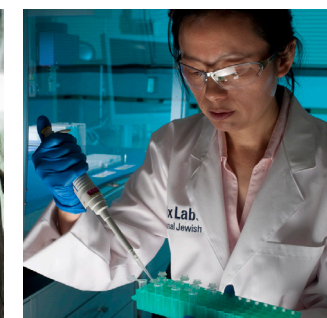

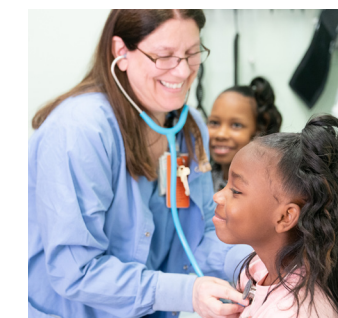

Proceeds from the 29th annual Beaux Arts Ball will help National Jewish Health lead groundbreaking research and provide unequalled, compassionate care for children and adults living with the most complex lung, heart, immune and related conditions.

As the leading respiratory hospital in the nation, no other medical facility in the country offers our level of expertise for coordinated research and clinical care. For more than 125 years, patients have come to us from across the country and around the world seeking the answers, hope and healing they could not find anywhere else.

Our world-class faculty and staff set national treatment guidelines, consistently being named on “best of” lists, such as “America’s Top Doctors” by Castle Connolly.

In Press Ganey patient surveys, 95% of all patients would recommend National Jewish Health to a friend or family member. We have received especially high ratings in communication, joint decision making and patient confidence in care providers.

Since National Jewish Health opened its doors in 1899, we have given care to all patients, regardless of their ability to pay. Because of this need, we provided an estimated \$38 million in free and subsidized care in fiscal year 2025 alone.
