ABOUT NATIONAL JEWISH HEALTH

The Black & White Ball raises critical funds for National Jewish Health, enabling groundbreaking discoveries and compassionate care that can be life-changing for children and adults living with complex lung, heart, immune and related conditions. Patients come to National Jewish Health from across the country and around the world seeking answers and finding hope and healing – that often they have not found anywhere else.

As the leading respiratory hospital in the nation, we have built our 126-year legacy with unmatched research capabilities and world-class faculty, driving breakthroughs in asthma, COPD and cystic fibrosis, among many other debilitating conditions. We collaborate to understand the root cause of a patient's disease and to define an individualized treatment plan for each person.

To underscore our reputation for excellence:

- Our clinicians set national treatment guidelines for the medical community.
- They are consistently named on "best of" lists, such as "America's Top Doctors" by Castle Connolly.
- Press Ganey surveys show that 95% of all patients would recommend National Jewish Health to a friend or family member.
- We have been named a top hospital in Pulmonology by U.S. News & World Report for 29 consecutive years, and one of "World's Best Specialized Hospitals" in pulmonology by Newsweek.

Established in 1899 as a charitable hospital, National Jewish Health provides care to all patients, regardless of their ability to pay. Because of this need, we delivered more than \$38 million in free and subsidized care in fiscal year 2025 alone.

NOIR L.A. BLACK & WHITE BALL NIGHTS
